GOOD TO KNOW

TIP 01

Fill some serum or oil into the Smart Infusion System by turning the metallic ring of the device anti-clockwise to remove the stone.

TIP 02

The stone itself has a cooling effect on the skin, which can be intensified by storing the device or ball in the fridge for around 20 minutes before each use.

TIP 03

Clean your device with our Organic Device Cleanser after every use.

Rotate to Remove Stone

MASTER THE FIRST STEPS

Our SmartAppGuided™ Rose Quartz Depuffing Sphere | 7 in 1 rids your skin of dullness and stimulates your lymphatic system, granting you a youthful radiance.

RENEWING FACE & LIFT

PREPARE

Apply a serum or cream of your choice on the areas you will work on. This will allow the device to glide smoothly over your skin.

FACE LIFT

Roll the device along your skin in an upward and outward motion. Some common areas to go over include along your jawbone starting at the chin, over the cheekbone, and across the forehead.

NECK LIFT

Roll the device along the side of your neck up to the jawbone. Make sure to cover all areas of the neck.

FINISH

Rinse the device with water to remove any leftover cosmetics. Clean your device with our Organic Device Cleanser after every use.

FULL BODY REJUVENATION

PREPARE

Apply a serum or cream of your choice on the areas you will work on. This will allow the device to glide smoothly over your skin. Some common focus areas are the arms, legs, thighs and abdomen.

LIFT

Glide the device up along the arms, legs, thighs and abdomen while applying gentle pressure. Make 3-5 passes in each area. Apply more serum or cream as and when needed.

FINISH

Rinse the device with water to remove any leftover cosmetics. Clean your device with our Organic Device Cleanser after every use.

IMPORTANT SAFETY INFORMATION. READ BEFORE USE.

Read the safety information before first use. Keep both instructions for use.

Your product at a glance

Your product is a rose quartz roller for face and body. This can be used safely up to three times a day. Please do not use more often. For maximum safety and optimal results, always follow your personalized skincare routine created by the GESKE app.

Notes on Use

Before using the device for the first time, this Safety Brochure and the Quick Start Guide must be read in their entirety. Both manuals should be retained as they contain important information on safe usage as well as on technical and legal guidance. The device is a skin-care product for adults, not a medical device and not a product with medical or other healing properties. The intended use also includes observing the Quick Start Guide, the warnings listed here and the personalized application recommendations from the GESKE app.

Specifications

Materials: ABS, rose quartz, silicone | Storage Temperature: -5 – +60 °C / 23 – 140 °F

The product is not suitable for use under the following conditions:

- After laser treatment or chemical peeling
- After facial surgery, both cosmetically and medically indicated
- In case of neurodermatitis, herpes or other skin diseases

Further information on use:

- Do not use the product on irritated or injured skin or open wounds (after any kind of injury), in the case of bacterial or viral infections of the skin (either in the usage area and elsewhere)
- This product is not intended to treat medical skin conditions or diseases. If you have medical skin conditions or diseases, consult your dermatologist before using this product
- Do not use the product if it is 1) damaged or deformed, 2) discolored
- If pain and/or discomfort occurs during use, discontinue use and seek medical advice
- The eye area is very sensitive: Be extra careful in this area and avoid any contact of the product with the eyelids or the eye itself
- Only use the product as recommended in your personalized routine
- For hygiene reasons, we recommend you do not share your product with anyone else
- The product is intended for cosmetic use on the face and body. GESKE accepts no liability for harmful consequences resulting from application to other parts of the body or other improper use

- After each session, you should clean the used product with lukewarm water and our Organic Device Cleanser and then allow it to dry
- The ball of the device rotates 360° and rolls gently over the skin
- Use a moisturizing cream or serum to help the device glide over your skin. Do not exert too much pressure on the skin during the application
- You can use this product to lift the skin and to help stimulate lymph flow as well. This reduces swelling
- To achieve a lifting effect, you should glide over the skin in gentle upward movements
- You help to stimulate the lymph flow by gliding the device over the surface of the skin using slow, rhythmic strokes along the lymphatic system. It is always important to move outwards, as waste products are removed via the lymphatic system
- The stone can break if it falls onto hard surfaces. To prevent this, store the product safely in a box or cloth bag
- Keep product out of reach of children

Warnings

Risk of injury if used incorrectly!

Only use the product as directed in the Quick Start Guide and video instructions. If you still have questions, please contact our Customer Support at support@geske.com.

Risk of injury to children!

Keep the product out of the reach of children.

Limitation of liability

GESKE Beauty GmbH and/or their retailers are liable for damages caused by intentional or grossly negligent behaviour of Triple A Import GmbH, a representative or vicarious agent, in accordance with legal directives. With the exception of injury to life, limb or health, and breach of essential contractual obligations (cardinal obligations), Triple A Import GmbH and/or their retailers are only liable for damages which can be attributed to intentional or grossly negligent behaviour. This also applies to indirect damages, in particular lost profits. Moreover, liability with regard to consumers due to an assumed guarantee, except in the case of intentional or grossly negligent behaviour, or where there is an injury to life, limb or health and a breach of essential contractual obligations (cardinal obligations) is limited to the typical, foreseeable damages on conclusion of the contract, and also to the level of the average damages typical for this contract. This also applies to indirect damages, in particular lost profits. With regard to companies, except in the case of injury to life, limb and health or intentional or grossly negligent behaviour by Triple A Import GmbH, and/or its retailers liability is limited to the typical, foreseeable damages on conclusion of the contract, and also to the level of the average damages typical for this contract. This also applies to indirect damages, in particular lost profits. No liability will be accepted for damages due to: Non-compliance with this manual/ Improper use/ Unauthorised alterations/ Technical modifications/Use of unapproved spare parts/Use of unapproved accessories. Claims for liability due to the German product liability legislation remain unaffected.
